Why Does UEA Publish This Salary Comparison?

For the past 29 years, UEA has published a comparison of teachers' salaries from area school districts. It allows teachers the opportunity to see how their district compares to others. It also proves to be a valuable tool that superintendents, administrators, and school boards use in determining salaries. Just like our regular newsletter, this will be distributed to over 90,000 school employees.

***Dallas ISD pays under a pay-for-performance scheme. Exact salaries cannot be determined.*
